To the 1944 Graduates
of the School of Pharmacy
University of Maryland
Baltimore, Maryland

If ever a graduating class had an opportunity to make available immediately for the service of humanity the benefits of their professional training, such an opportunity presses upon the graduates of the University of Maryland School of Pharmacy this year.

There is urgent need for the utmost in skill that you can contribute to the good of our fighting men on every battlefront, and to the population at home whose health must be given special attention because of the additional dangers occasioned by the stepup in war industries.

As surely as any man or woman who has volunteered for the fighting or auxiliary services, you are under the responsibility of accepting your full responsibility in this all-out battle for the preservation of decency in the world, and of discharging this duty to the very utmost of your capabilities.

I congratulate you on having been privileged to acquire the valuable training that is yours. I am confident you will require no urging to put it to the best possible use.

HERBERT R. O'CONOR
Governor

Because you who have graduated from the School of Pharmacy stand today with the successful completion of four years in pharmaceutical education to your credit; because this great achievement is evidence of your desire and determination to dedicate your lives to public service; and because now, more than ever, those that are equipped, as you are, to enter the profession of pharmacy are in a position to render signal service to their country, I give you my official and personal congratulations and best wishes as you enter your profession to become leaders in the field of public health.

The University of Maryland will follow your future career with as much pride as it now has on your day of graduation.

H. C. BYRD
President

You, who constitute the present senior class in pharmacy, will in all likelihood be graduated while our country is still at war. This being true, you will be graduated during a critical time in our country's history, at a time when the need for the services which can only be rendered by well educated and trained pharmacists will be unusually pressing.

I congratulate you upon having completed the formal part of your education at a time when the opportunities for service to your country are so numerous and the possibilities for worthwhile accomplishments are so great. I know that you will avail yourselves of these opportunities to serve in accordance with the best Maryland tradition.

With best wishes for your future success and happiness, I am

Sincerely yours,

A. G. DuMEZ

Dean

HISTORY OF THE SCHOOL

In 1841 a charter was obtained for the Maryland College of Pharmacy. The incorporators established courses in chemistry, pharmacy and materia medica, and directed the college until 1847, when lectures were suspended. In 1856, President G. W. Andrews called a meeting which resulted in a reorganization.

David Stewart gave the lectures in pharmacy, 1841-6. Following the reorganization; the chair was filled by I. J. Grahame, succeeded by L. Phillips. At Phillips' death, J. F. Moore was elected, and remained for nineteen years, after which he became Professor of Materia Medica. Charles Caspari, Jr., was Professor of Pharmacy, 1879-1917, being succeeded by E. F. Kelly (1917-26) and J. C. Krantz, Jr. (1926-7). Dean A. G. DuMez now holds the professorship.

W. E. A. Aiken was lecturer in chemistry, 1841-6. Lewis Steiner was Professor of Chemistry for a number of years, succeeded by Professors Mayer, Helsby and De Rosset. Upon the latter's resignation (1873), William Simon was elected. Daniel Base succeeded Simon (1902), resigning in 1920. In 1936 G. L. Jenkins, Professor of Pharmaceutical Chemistry since 1927, resigned. W. H. Hartung is the present incumbent.

David Stewart and W. S. Reese were the lecturers in materia medica, 1841-6. C. P. Frick became Professor of Materia Medica at the reorganization, continuing until 1858, and succeeded by Frank Donaldson, J. R. Winslow, Claude Baxley, J. F. Moore and D. M. R. Culbreth. C. G. Plitt was Professor of Botany and Pharmacognosy until 1933. F. J. Slama has headed the department since 1938.

H. P. Hynson was Professor of Dispensing Pharmacy, 1902-16, succeeded by J. C. Wolf, the present incumbent. In 1913 courses in pharmaceutical arithmetic and law were added. In 1927 the work in commercial pharmacy was expanded. Later, a course in principles of economics was added. The Department of Economics is headed by B. Olive Cole, also Professor of Pharmaceutical Law.

In 1921 the curriculum was broadened to include academic subjects, and provisions were made for teaching bacteriology. A separate department for bacteriology was in charge of A. H. Bryan. Since 1937 this department has been headed by T. C. Grubb.

In 1930, through the generosity of Isaac E. Emerson, the Department of Pharmacology was organized to give instruction in bioassaying. M. R. Thompson was Emerson Professor, 1930-8, and was succeeded by C. W. Chapman, the present head of the department.

The presidents of the college have been such illustrious pharmacists as T. G. MacKenzie, B. R. Roberts, G. W. Andrews, J. B. Baxley, J. F. Moore, J. F. Hancock, Joseph Roberts, Edwin Eareckson, W. S. Thompson, Louis Dohme and C. E. Dohme.

Charles Caspari, Jr., was Dean of the college, 1896-1917. He was succeeded by Daniel Base (1917-8) and E. F. Kelly (1918-25). A. G. DuMez, the present Dean, succeeded Dr. Kelly.

The first classes were held in a small room at Gay and Baltimore Streets. From 1844-7 lectures were given in the amphitheatre of the University of Maryland at Lombard and Greene Streets. After the reorganization in 1856, classes were held in various rented halls. In 1876 Female Grammar School No. 3, on Aisquith Street, was purchased from the city and equipped for the work of the college. This building was torn down in 1887, and a three-story structure erected in its place, to be occupied until 1904, when the Maryland College of Pharmacy was amalgamated with the group of schools in Baltimore then known as the University of Maryland. At this time the college moved to Lombard and Greene Streets, where it has remained. In 1930 the college moved into the building which it now occupies.

The School of Pharmacy of the University of Maryland, beginning its existence as the Maryland College of Pharmacy, has exercised its functions since 1841, except for the period 1846-56. It was the first institution of its kind to establish a professorship of pharmacy, the first to have a course in the manufacture of the various galenical preparations of the United States Pharmacopeia and the National Formulary, and the first to have a separate course in dispensing pharmacy. It was also one of the first schools to make analytical chemistry obligatory. In still other lines its leadership has been manifest, particularly in the textbooks written by its professors and in its efforts to advance the standards of pharmaceutical education. The first convention of representatives of colleges of pharmacy was held in Baltimore in 1870, on invitation of Dr. Hynson, a member of the faculty. Again in 1900 Dr. Hynson issued the call for the conference of pharmaceutical educators which resulted in the formation of the American Association of Colleges of Pharmacy. In the light of these distinctions, it is not surprising that the school now holds a position in the front ranks of institutions of its kind in the country.

CLASS PRESIDENT'S MESSAGE

FELLOW CLASSMATES:

After four years of earnest and tireless effort we have finally achieved our coveted goal. The going was not easy, but the fruit of our labor is well worth the effort.

Although we are graduating into a world of turmoil and strife, I know that we will always do our utmost to be a credit to Pharmacy and to our country. We have all worked together in the past, and I hope that the future will be a repetition of those bygone days of honest endeavor.

On behalf of the class I would like to thank the faculty for their thoughtful and helpful guidance throughout our school years.

I wish at this time to thank the class for bestowing upon me the honor and privilege of leading them through their final year of school. And with the same token I sincerely wish a successful future for all.

ORGANIZATIONS

Alumni Association

"The Society of the Alumni of the Maryland College of Pharmacy" was organized in 1871, continued its separate existence until 1907, then joined with the General Alumni Association of the University of Maryland, remained dormant for a period, and was re-established in 1926 as "The Alumni Association of the School of Pharmacy of the University of Maryland."

On June 3, 1943, the Alumni Association unveiled in the School of Pharmacy an Honor Roll of Alumni of the School serving in the armed forces. Other names will be added to this roll as they are brought to the attention of the officers.

MESSAGE FROM THE PRESIDENT

After four years of hard, diligent work you have been graduated into a world at war. It is up to you, the graduates, to carry your profession to even higher glory, now, and after the war is won.

Your primary education is complete as evidenced by your diploma but your future interest and learning will determine your future worth as pharmacists.

Good luck to you all.

The Rio Chi Society evolved from a local pharmaceutical organization which was established at the University of Michigan, College of Pharmacy, on May 4, 1908. The local group chose the name of the "Aristolochite Society."

It was founded as The Rho Chi Society at the University of Michigan, in the City of Ann Arbor, in the year Nineteen Hundred and Twenty-Two, and incorporated in that year.

Chapters of Rho Chi may be established only at recognized colleges of pharmacy. Eligibility for membership is based on the completion of 75 credit hours of college work and the attainment of certain prescribed standards for scholarship, character, personality, and leadership.

The object of Rho Chi has always been twofold, namely, to promote the advancement of pharmaceutical sciences and to promote good fellowship. The Society has, therefore, done much good in the schools where chapters have been established, since the reward of election to membership supplies a scholarship incentive unequalled by any of the other rewards. A third objective has developed in recent years, that of stimulating research in the pharmaceutical sciences.

The Student Council of the School of Pharmacy was organized on April 7, 1926. The Council is a representative group composed of twelve members, three elected from each class. It supervises, in a general way, the social and athletic activities of the school, and seeks to encourage and foster in the student body a friendly and wholesome spirit which will reflect honor on the splendid traditions of the University.

The Student Council has been a means of instilling a feeling of fellowship among the students, and has continually worked for the development of harmony and co-operation between the student body and the faculty. The Council has sought to instill in each student the desire to conduct himself honestly, fairly, and courteously in all his activities, both within and without the University. The liberal policy which has characterized its supervision of the extra-curricular activities has met with the general approval and co-operation of the student body.

EDITOR'S MESSAGE

The 1944 edition of the TERRA MARIAE is of necessity a brief, but complete, record of the activities of the past year. It is hoped by the editor that the reader will look kindly upon this volume as one which was prepared in all sincerity and humility of spirit, and one which it is hoped will afford great pleasure when read in years to come.

ACKNOWLEDGEMENT

For the inestimable aid received in completing this, *the 1944* TERRA MARIAE, the editor wishes to express his sincere appreciation. He wishes particularly to thank Mr. Schultz for his energy, originality, and patience in planning and publishing the book; Dr. Pyles for his untiring interest and supervision; Mrs. Brown of the H. G. Roebuck & Son Photographic Studio for her cooperation in photography; Mr. Kanowsky for his excellent art work. To the staff of the Terra Mariae, the student body, the members of the faculty, and the administration officials, who cooperated in every way, the editor owes a debt which can be but partially repaid by words.

LEST WE FORGET

All night sessions and what we learned about chemistry, girls, pharmacy, girls, zoology, girls and of course dames . . . "Moon Face's" explanation of how to properly study . . . "crap games" . . . "Windy's" long, long long explanations, which could have been much much shorter . . . "Telephone Pole" and "Lucky Pierre" and "Lucky Wee Wee" . . . A yellow "M" on a black sweater under a "Strange Face" . . . When "Square Head's" haircuts looked as if they were gotten in the Vanilla Bean Chopper . . . How "Barney Google" led "Mystery Girl" to the post . . . "They're Off!" . . . How music was supplied (any tune—any time) by our own "Citizen Kane" (our apologies to Orson). The "Beak's" all night love stories—his own experiences too! . . . The three ensigns whose sea duty consisted of sailing paper boats in the Pharmacology frog pond, and—Mrs. Louis Sachs, our gracious "house mother" who patiently put up with our midnight noise and ravenous appetites for four years.

"Beak"

NOXZEMA SALUTES

The Pharmacy Students of the University of Maryland!

The famous Medicated Skin Cream, Noxzema, was originated by Dr. George A. Bunting—himself an alumnus—Class of '99—of the University of Maryland School of Pharmacy. From an idea it has grown to a household necessity, in use all over the world.

Today Noxzema is bringing grateful relief from Sunburn, Windburn, Rough, chapped hands, Minor insect bites, Minor burns, Tired, burning feet and many other externally-caused skin troubles—to our men in the service everywhere as well as to millions here at home.
